

Important Meet Information!

We have been to this site four times previously, but this time will be different. The museum is now OPEN to the public! Joe and Kelly Findysz have done an INCREDIBLE job making this dream come to life. We need everyone's help to ensure this is a smooth process.

ALPS will have a SEPARATE entrance to the building. Please do NOT use the MAIN entrance. The museum is open to the public and the customer facing main entrance will require purchasing an additional admission ticket. In addition, loading plates through the main entrance and gift shop will not be possible.

The table setup and arrangement will also be different than in past year.

We will enter on the NORTH side of the building (the right hand side of the building if you are in the parking lot looking toward the front of the building). You can park in any available space in front of the museum but the entry and the load-in will be at the area noted in the red circle on the map below.

Doors open at 8:00 AM. See you there!
