

Important Meet Information!

The museum is now OPEN to the public! Joe and Kelly Findysz have done an INCREDIBLE job making this dream come to life. We need everyone's help to ensure this is a smooth process. Each year there are new things to see and do.

ALPS will have a SEPARATE entrance to the building. Please do NOT use the MAIN entrance. The museum is open to the public and the customer facing main entrance will require purchasing an additional admission ticket. In addition, loading plates through the main entrance and gift shop will not be possible.

All tables will be provided by the museum and are not to be moved. Do not bring your own tables for this meet, the museum has plenty.

We will enter via the driveway on the SOUTH side of the building (the left hand side of the building if you are in the parking lot looking toward the front of the building – next to the big DES building). You can park in any available space in front of the museum but the entry and the load-in will be in the BACK of the building at the area noted in the red circle on the map below.

For those familiar with the museum, we will be in the Fire Truck room.

Again, do not enter through the main museum entrance.

Doors open at 8:00 AM. See you there!
